One of the best ways to improve our communities is through volunteer work. According to a report from United Nations Volunteers, it is estimated that 140 million people volunteer in every nation and in a variety of settings. Forbes reports that research has shown that volunteering can greatly benefit volunteers. These benefits include an increased sense of productivity, the development of new skills, resume-building experience, improved physical health, and the emotional rewards that come with others appreciating you and your efforts. Here are some types for you to join in local communities.

Sports volunteering

You don't need to be good at the sport in which you wish to volunteer. Some of the most important characteristics

include enthusiasm and interest. Your sports organisation should put you through any qualifications that you need to carry out your role. Most people volunteer on average two or three hours a week, but there are also opportunities to volunteer more or less often.

Support the Red Cross

Red Cross is an organization that helps with disaster relief, blood donations, and more. Being a Red Cross volunteer provides experience in the medical field and allows you to help those in need. The Red Cross responds to disasters nationwide and helps communities recover. It may be difficult to see damaged communities, but you could have a part in assisting them to recover. In addition, you may meet new friends along the way.

Organize a Summer Reading Program

Summer reading programs are one way to keep children's reading skills active and their mind fresh during the whole summer vacation. Organizing a summer reading program is an excellent way to get kids to read a book, broaden their vocabulary, and learn something new. You can share your favorite books, offer prizes to children who meet their goals, and turn the program into a friendly competition, all while teaching children the importance of reading.

The first essay I wrote for my history of English class was perfect, at least from my perspective. I had worked on it constantly and couldn't wait to get my grade back. I handed it in with pride.

Two weeks later, I received my grade: a D. The pages were covered in red writing, pointing out errors. There must have been a mistake.

University started later for me than most. The opportunity wasn't available when I was younger—too many kids in our family and too little money. But I never stopped wondering what university would have been like. I was in my 40s when I sent in my application and as a part-time student　I will be in my 60s before I'm finished. That's my goal.

What's it like to be the old guy in a class full of 20-year-olds? It's strange. They pretty much ignored me, and I ignored them. They also ignored each other. However, after we had more group work together, people started to communicate. Although I was an English major, some of my favorite classes were unrelated electives. Courses in art history and Greek and Roman history were fascinating. I was eager to do well.

I arranged a meeting to discuss my essay grade and arrived 10 minutes early to meet the teacher's assistant I

was ready to argue for the brilliance of my paper. However, she quickly explained to me that the paper failed to make a strong argument. The mark remained.

I kept studying and kept leaning, I learned to love two dozen writers I had never heard of before and explored types of literature I had never examined. Eventually, I learned how to write an essay in proper academic prose.

University is different when you are a senior, part-time student. If you are there to establish a career or because your parents forced you to go, there are other pressures. For me, it's just learning. Whether I'm learning remotely or in person, it makes the world a bigger, richer place.

24. Why did the writer start university later than others?

A. His application was refused.　　B. His teacher disliked his essay.

C. His family was not rich enough.　　D. His health did not meet the standard.

25. How did the writer feel after receiving the grade of his first essay?

A. Surprised.　　B. Pleased　　C. Excited.　　D. Hopeless

26. What helped the writer in writing a proper academic essay?

A. Strong curiosity.　　B. Constant efforts.

C. Great pressure.　　D. Remarkable creativity.

27. Which would be the best title for the passage?

A. Practice Makes Perfect

B. Not All That Shines Is Gold

C. Where There Is A Will, There Is A Way

D. Action Speaks Louder Than Words

C

NASA's spacecraft Dart hit an asteroid (小行星) 11.3 million kilometers away at a speed, changing the asteroid's orbit and lowered its cycle period by I5 minutes, the space organization announced on Monday.

Some said the move shows the world might now be able to prevent asteroids — the kind that made the dinosaurs extinct — from hitting the Earth. The asteroid that was controlled belonged to a double-asteroid system. It had a 160-meter diameter while the other asteroid's diameter is over 500 meters. The bigger asteroid can be compared to the one that ended the dinosaur era 67 million years ago. A hit from an asteroid that size can cause unimaginable destruction.

However, it is too early to assert that the world has gained the ability to prevent asteroids from hitting us. The asteroid that was controlled was only 160 meters in size. Its cycle period was changed, without changing its orbit significantly. It is still not clear if the orbit of a much larger asteroid headed toward the Earth can be changed successfully.

In brief, NASA's success in changing the course of a harmful asteroid is definitely praiseworthy, but much more needs to be done before we can say the world's security from some unpredictable asteroid is guaranteed.

It should be noted that changing the orbit of an asteroid involves more than just sending an object into space and commanding it to hit the asteroid. While it is hard enough to hit an asteroid, it is even more difficult to lock onto one in the first place. It means having the ability to observe approaching asteroids, measuring their respective speeds, and deciding which ones might pose a danger to the Earth.

Therefore, there's more to Dart hitting the asteroid than meets the eye. And these are key areas where global scientists need to work harder in the future.

28. What was the latest news about NASA?

A. Its new program failed.

B. Its manned spaceship hit an asteroid.

C. Its spacecraft changed an asteroid's orbit.

D. Its spacecraft saved the earth from being destroyed.

29. What does the underlined word "assert" in Paragraph 3 most probably mean?

A. Advise. B. State. C. Promise. D. Admit.

30. What can we learn about the asteroid that was hit?

A. It was comparatively small in size.

B. Its orbit was changed significantly.

C. It travelled at a higher speed than before.

D. It was powerful enough to end dinosaur era.

31. What is the author's attitude toward using spacecrafts to change the asteroids orbits?

A. Neutral. B. Optimistic.

C. Pessimistic. D. Not mentioned.

D

As information technology has improved, the medical industry's ability to treat patients has increased significantly. Over the past decade, doctors and healthcare professionals have seen the rise of telemedicine. In the most basic terms, telemedicine refers to the capability of patients to consult with doctors using remote conferencing technology—that is, without the need for an in-person visit.

In conventional medicine, patients and doctors rarely discuss the details of a patient's problem or specific treatments over the telephone. These discussions were almost always kept within the privacy of a hospital or a doctor's office. The cost of healthcare in some countries is astronomically expensive. Millions of people worldwide cannot receive proper healthcare services because of the cost of the treatment. However, with high-speed internet video conferencing and online file-sharing technology, access to healthcare has become much more convenient and affordable because healthcare is provided from the patient's home, and transportation and transfer expenses are eliminated (消除). An article written by the American Journal of Managed Care indicates that on average virtual appointments cost between $ 40 to $ 50, while in- person visits cost a whopping (巨大的) $ 179 on average. This makes telemedicine a more cost-effective option.

In addition to the positive economic benefits, for elderly patients, or those with mobility issues, telemedicine is a game changer. Health care is also no longer limited by the open hours at the local doctor's office. With the globally connected internet, patients can contact a doctor anytime. They could as easily seek second opinions from doctors in other parts of the country or on the other side of the world, for that matter. What's more, telemedicine reduces the risks of transmitting infectious diseases, In the past, people with symptoms such as flu, measles, etc., visited hospitals. As those diseases are contagious, other visitors and workers are at risk of being exposed to those diseases. This is where telemedicine can step in to prevent contagious diseases from spreading. Even better, telemedicine lowers the number of patients in hospitals, which frees up staff and resources for patients in urgent need.

For a glimpse of the future of telemedicine, consider the internet hospitals that have emerged in recent years, which offer medical consultations to users of online platforms. With the help of internet hospitals, users can schedule

an appointment and have a high-quality video conference with a qualified and professional physician. Moreover, doctors can even prescribe and have medication online and have them shipped to the patients using express. Less than two decades ago, such convenient access to health care would have seemed unimaginable. However, it does have limitations, such as collecting fresh samples for medical tests and X-rays. While telemedicine can't change the current health care overnight, it will be a part of the modem medical system.

32. What are Paragraph 2 and Paragraph 3 mainly about?

A. The cost of the healthcare.　　B. The advantages of telemedicine.

C. The privacy issue of the patients.　　D. The prevention of the contagious diseases.

33. According to the passage, with telemedicine, patients _____.

A. pay the healthcare expense easily online

B. get access to different kinds of medical tests

C. have the risk of being affected by the diseases

D. get professional suggestions from doctors at home and abroad

34. What can you learn from the passage?

A. Internet hospitals will replace conventional hospitals in the future.

B. Telemedicine's existing problems are greater than the potential benefits.

C. Doctors find telemedicine helpful for collecting fresh medical test samples.

D. Telemedicine makes the medical service available from the comfort of home.

第三部分：书面表达(共两节，32 分)

第一节(共 4 小题;第 40、41 题各 2 分，第 42 题 3 分，第 43 题 5 分，共 12 分)

阅读下面短文，根据题目要求用英语回答问题。

Once upon a time, the family dining table would be set with a simple cloth each night. Plates, forks, and spoons would be laid out. As dinner time approached, an increasing number of hungry mouths would begin to appear with the question, “What’s for dinner?”

Now the situation is different. Where did your family eat dinner last night? In the car on the way to sports? At McDonald’s? Or at the dinner table? A survey taken a few years ago found that 28% families ate dinner together at home seven nights a week. Another quarter said they ate together three or fewer nights a week.

What accounts for this decline in families eating together today though? The data seems to point to two main issues: overworked parents and over- scheduled children. When mum or dad does get home in the evening, they are soon in the car again to send the children to soccer, music, tutoring, and a host of other events.

This nightly ceremony around the dinner table is what keeps a family together. Sure, the conversation is not always significant, and children argue. And sometimes the deepest and most meaningful times in a family are not at the table at all. However, there is still something unique about the time a family spends around the dinner table. The dinner table is the place where a family builds an identity. Stories are passed down, jokes are exchanged, and the wider world is examined through the lens (镜头) of a family’s values. Children pick up vocabulary and a sense of how a conversation is structured. Dinner time is “family time”. Coming back daily to the same place helps gain familiarity.

The significance of dinner time is more than the above. Studies show that the more families eat together, the less likely the children are to smoke, drink, and develop eating disorders, and the more likely they are to do well in school and learn how to socialize. One professor at Rutgers University in New Jersey stated, “A meal is about civilizing children. It’s a time to teach them to be a member of their culture.”

So start by planning some stay-at-home family dinners together. Just family talk.

40. Where did people usually have dinner in the past?

_____

41. What causes the decline in families eating together?

_____

42. Please decide which part is false in the following statement, then underline it and explain why.

➢***If families eat together more often, children will be more likely to do well in school and learn how to socialize, and will not have bad habits or eating disorders at all.***

_____

43. Apart from having family dinners together, what other way(s) can you think of to keep a family together? (**In about 40 words**)

推理判断题。根据第二段的“The pages were covered in red writing, pointing out errors. There must have been a mistake.(纸上用红色字体标出错误。一定是弄错了。)”可知，作者在收到第一篇作文的分数后觉得惊讶，故选 A。

【26 题详解】

细节理解题。根据倒数第二段的“I kept studying and kept leaning, I learned to love two dozen writers I had never heard of before and explored types of literature I had never examined. Eventually, I learned how to write an essay in proper academic prose.(我不断地学习，不断地学习，我爱上了二十几位我从未听说过的作家，探索

了我从未研究过的文学类型。最终，我学会了如何用正确的学术散文写一篇文章。)”可知，不断的努力帮助作者写出一篇合适的学术论文。故选 B。

【27 题详解】

主旨大意题。通读全文，尤其是倒数第二段的“I kept studying and kept leaning, I learned to love two dozen writers I had never heard of before and explored types of literature I had never examined. Eventually, I learned how to write an essay in proper academic prose.(我不断地学习，不断地学习，我爱上了二十几位我从未听说过的作家，探索了我从未研究过的文学类型。最终，我学会了如何用正确的学术散文写一篇文章。)”可知，本文主要讲的是作者在 40 多岁的时候申请成为一名兼职学生，之后不断努力学习，终于能够写出一篇合适的学术论文的故事，说明了“有志者事竟成”这个道理，因此最好的题目是 C 选项“Where There Is A Will, There Is A Way(有志者事竟成)”，故选 C。

【答案】28. C　　29. B　　30. A　　31. B

【解析】

【导语】文章是一篇新闻报道。文章讲述了美国航天局的宇宙飞船击中了小行星，并改变了其运动轨道。

【28 题详解】

细节理解题。根据第一段“NASA’s spacecraft Dart hit an asteroid (小行星) 11.3 million kilometers away at a speed, changing the asteroid’s orbit and lowered its cycle period by I5 minutes, the space organization announced on Monday. (国际空间组于周一宣布，美国航天局宇宙飞船 Dart 以极快的速度击中了 1130 公里以外的一颗小行星，改变了它的轨道并且缩短了它的周期)”可知，飞船由于撞击小行星，改变了小行星的运行轨道和周期。故选 C 项。

【29 题详解】

词句猜测题。根据第二段“Some said the move shows the world might now be able to prevent asteroids—the kind that made the dinosaurs extinct — from hitting the Earth. (有人说，这一举动表明，世界现在有能力阻止导致恐龙灭绝的小行星撞击地球)”和第三段的“ the world has gained the ability to prevent asteroids from hitting us.(世界已经获得防止小行星撞击我们的能力还为时尚早)”以及该段中的 however 可知，该处表示转折，故划线词含义应与上文“said”相对应，与 state“宣称”意思接近。故选 B。

【30 题详解】

推理判断题。根据第三段“The asteroid that was controlled was only 160 meters in size. Its cycle period was changed, without changing its orbit significantly. It is still not clear if the orbit of a much larger asteroid headed toward the Earth can be changed successfully.(被控制的小行星只有 160 米大。它的周期改变了，但轨道没有明显改变。目前还不清楚一颗更大的小行星朝向地球的轨道能否成功改变)”可推知，相对来说，这颗小行星比较小。故选 A。

【31 题详解】

推理判断题。根据第四段“In brief, NASA’s success in changing the course of a harmful asteroid is definitely praiseworthy, but much more needs to be done before we can say the world’s security from some unpredictable asteroid is guaranteed.(简而言之，NASA 成功地改变了一颗有害小行星的运行轨迹，这无疑是值得称赞的，但我们还需要做更多的工作，才能保证世界免受一些不可预测的小行星的威胁)”可推知，作者对于太空飞

船改变小行星轨道是赞赏的态度。故选 B。

【答案】35. A　　36. G　　37. C　　38. D　　39. F

【解析】

【导语】这是一篇记叙文。文章讲述作者向学校申请创建俱乐部的故事。

【35 题详解】

由前文“ What makes these clubs so special?(是什么让这些俱乐部如此特别？)”和后文“From bringing up ideas to putting them into action, the students do everything.(从提出想法到付诸行动，学生们无所不为。)”可知，这次活动是学生主导的。而 A 项 They are not led by teachers.(他们不是由老师领导的。)符合语境，有启下作用。故选 A 项。

【36 题详解】

由后文“ As soon as word got out, students took the chance.(消息一出，学生们就抓住了机会。) ”可知，这里主要讲学生积极参与创建俱乐部。而 G 项 Our school recently announced that we could start our own clubs.(我们学校最近宣布我们可以成立自己的俱乐部。)符合语境，其中 announced 和后文 word got out 对应。故选 G 项。

【37 题详解】

由后文“Then we realized that we didn’t get used to writing in that kind of style. (然后我们意识到我们不习惯这种风格的写作。)”可推知，作者他们的申请没有通过，所以 C 项 Unfortunately, we did not pass it.(不幸的是，我们没有通过。)符合语境。故选 C 项。

【38 题详解】

由后文“When the school agreed, we got a new club!(学校同意后，我们有了一个新俱乐部！)”可知，这里讲作者他们的申请通过了，所以前句应该讲他们再次申请，D 项 Then we sent the proposal to the school.(然后我们把申请送到学校。)符合语境。故选 D 项。

由前文“Starting a club is not easy, but leading it is harder. A fully student- run club is a good chance to test your leadership skills.(成立一家俱乐部并不容易，但领导俱乐部更难。一个完全由学生经营的俱乐部是测试你领导能力的好机会。)”可知，这里主要讲成立俱乐部的益处，所以 F 项 This opportunity today is truly creating leaders for tomorrow.(今天的这个机会真正造就了明天的领导者。)符合语境，其中 leaders 与前文 your leadership skills 对应。故选 F 项。

42. ***If families eat together more often, children will be more likely to do well in school and learn how to socialize, and will <u>not have bad habits or eating disorders at all</u>.***

The data seems to point to two main issues: overworked parents and over- scheduled children.(那么，是什么导致了如今家庭聚餐的减少呢?数据似乎指向两个主要问题:过度劳累的父母和过度安排的孩子)”可知，过度疲劳的父母和过度安排的孩子导致家庭聚餐减少。故答案为：Overworked parents and over-scheduled children cause the decline in families eating together.

【42 题详解】

考查细节理解。根据倒数第二段的“Studies show that the more families eat together, the less likely the children are to smoke, drink, and develop eating disorders, and the more likely they are to do well in school and learn how to socialize(研究表明，家庭成员在一起吃饭的次数越多，孩子吸烟、酗酒和饮食失调的可能性就越小，他们在学校的表现就越好，也就越有可能学会如何社交)”可知，家庭成员在一起吃饭的次数越多，孩子吸烟、酗酒和饮食失调的可能性就越小，他们在学校的表现就越好。而句中“will not have bad habits or eating disorders at all.(不会有坏习惯或饮食失调)”文章没有提到。故答案为:If families eat together more often, children will be more likely to do well in school and learn how to socialize, and will not have bad habits or eating disorders at all.
