2025 天津高考真题英语作文

假如你是李津，你现在在网上看到有一个航天相关论坛，有人要把地球文化相关的影像材料发送到外太空，全球网友一起投票投出 6 个最佳材料：京剧、金字塔、长城、中国高铁、大自然动物声音和每个国家不同语言的“你好”；现在要概括这 6 个材料代表的意义，并选出或自己推荐一个最适合被发送到外太空的材料。

注意：

1.词数 100 左右;

2.开头和结尾已给出，不计入总词数

参考答案

Dear Forum Members,

Among the six proposed cultural materials—Peking Opera, the Pyramids, the Great Wall, China's high-speed rail, sounds of nature, and "hello" in different languages—each represents unique aspects of human civilization. However, I strongly recommend sending "hello" in various languages to outer space.

This simple yet powerful word embodies humanity's core values of connection and friendship. By including greetings from every nation, we showcase Earth's beautiful diversity while emphasizing our shared desire for peaceful communication. Unlike physical monuments or technological achievements, spoken words directly convey human warmth and openness to interstellar dialogue.

Let us choose this universal message of goodwill to convey humanity's sincerest aspirations for communication with extraterrestrial life.

Yours,

Li Jin
