60.（8分）Hearing Voices

Would you like to be an actor, but aren't the right age or physical type for the part? Don't give up: there may be a place for you in the world of voice-acting.

Twenty-year-old Rickey Collins brings Tucker Foley to like in the cartoon Danny Phantom. In addition to many appearances on television and in movies, Rickey is a voice-over actor, someone we hear but don't see. Rickey has acted since he was 6, both on and off camera. After school, his grandmother-a manager and acting coach-helped his develop his skills by doing voice exercises and reading aloud.

Voice-over actors do many kinds of acting. They are the voices of cartoon characters on television, in movies and video games, and for communicating toys. In films, they replace the foreign language conversation with English version. They create crowd noises, make commercials, act in radio plays, and record telephone instructions and public announcements. They read books on tape and even record museum tours.

Like other actors, voice-over actors need to understand scripts, interpret characters, and breathe correctly. They have to master voice techniques, such as pacing, volume, and range. Sometimes they use their normal voices; other times they change their voices to create different characters or noises. Rickey

receives his Danny Phantom scripts only a few days before he tapes each episode（集). He rites helpful notes on the script to guide himself on speaking his part.

Rickey practices, then tapes at the recording studio. He and the other cast members sit in a soundproof booth, acting out their characters as they read their lines into the microphones. "The cartoon gets created after we record the words, so we have to imagine everything in our mind, "days Rickey. Later, the recorded words, music, and sound effects are combined with the cartoon art to create the cartoon we enjoy on TV. Sound interesting? Maybe you can have a"voice"in acting after all!

64.（6分）Basketball, Past and Present

In 1891, a teacher invented a new exercise in Springfield, Massachusetts. A particularly cold winter meant that Dr. James Naismith's students couldn't exercise outdoors, and he needed to find a way that would both entertain them and make sure they got enough exercise. He nailed a peach basket up at one end of the gym and began to develop the rules of what is now one of the most popular sports in the world:

basketball.

As colleges began to adopt the game at the turn of the 20th century, basketball undertook a number of rapid changes. Five-person teams became the norm around 1898. Metal hoops replaced peach baskets in 1906. Though it was short lived, the first basketball league was formed in 1898. Under the direction of President Roosevelt, in the 1930s college sports were reorganized to change the rules, largely to prevent injury to players. This organization became the National Collegiate Athletic Association, or NCCA. The first professional league, later to become the National Basketball Association, or NBA, was put together in 1948.

The game as we know it is still standardized very carefully. In the NBA and the NCAA, games are played for four quarters of 12minutes each.A regulation court is 94feet by 50feet,though international basketball leagues sometimes use a somewhat smaller court. It has been suggested that because the athleticism of professional players has increased so much since 1891the sport might be best served by increasing court size, though this change seems unlikely given the large amount of money that would be required to improve courts.

Outside of the professional and collegiate leagues, there seems to be no end to the introduction of new varieties of basketball from very corner of the world: water basketball, wheelchair basketball, even a new form called slamball（极限篮球). One might even say that Dr. James Naismith's creative achievement to sport exists in each one. And the basketball is significant for another reason: women have been playing almost since its inception: the first game of women's basketball was played in 1891, the same year the sport was invented.

64. What purpose does the first paragraph serve? _____

A. To provide the origin of basketball.

B. To stress the importance of basketball.

C. To offer basic knowledge of basketball.

D. To catch the reader's attention by telling a story.

65. Which of the following statements reflects the basketball inventor's spirit? _____

A. Basketball is now making a large profit.

B. Many new, creative varieties of basketball exits.

C. Americans are still very successful at basketball.

D. Basketball has become an international sport now.

66. The underlined word"inception"probably means_____.

A. golden age

B. beginning

C. booming

D. fading period.

67.（8分）The past ages of man have all been carefully labeled by anthropologists（人类学家）. Descriptions like"Paleolithic（旧石器时代）Man"，"Neolithic（新石器时代）Man"，etc，neatly sum up whole periods. When the time comes for anthropologists to turn their attention to the twenty－first century，they will surely choose the label"Legless Man". Histories of the time will go something like this："In the twenty－first century，people forgot how to use their legs. Men and women moved about in cars，buses and trains from a very early age. There were lifts in all large buildings to prevent people from walking. And the surprising thing is that they didn't use their legs even when they went on holiday. They built cable railways，ski－lifts and roads to the top of very huge mountain. All the beauty spots on earth were ruined by the presence of large car parks. "

The future history books might also record that we lost the right of using our eyes. In our hurry to get from one place to another，we failed to see anything on the way. Air travel gives you a bird's－eye view of the world or even less if the wing of the aircraft happens to get in your way. When you travel by car or train，the unclear picture of the countryside constantly slides over the window. When you mention the most impressive place－names in the world，the typical 21st century traveler always says"I've been there. "－meaning"I drove through it at 100miles an hour on the way to somewhere else. "

When you travel at high speeds，the present means nothing：you live mainly in the future because you spend most of your time looking forward to arriving at some other place. But actual arrival，when it is achieved，is meaningless. You want to move on again. By traveling like this，you skip all experience. The traveler on foot，on the other hand，lives in the present. For him traveling and arriving are one and the same thing：he arrives somewhere with every step he makes. He experiences the present moment with his eyes，his cars and the whole of his body. At the end of his journey he feels a delicious physical tiredness. Satisfying sleep will be his：the just reward of all true travelers.

67. Anthropologists name man nowadays"Legless Man"because_____.

A. people prefer cars，buses and trains

B. people travel without using legs

C. lifts prevent people from walking

D. people use their legs less and less

68. According to the passage，what might make people lose the right of using their eyes? _____

A. The modem means of transportation.

B. A bird's-eye view of the world.

C. The unclear sight from the vehicles.

D. The fast-paced life style.

69. From the passage, we know traveling at high speeds means_____.

A. appreciating beautiful scenery

B. experiencing life skills

C. focusing on the next destination

D. feeling physical tiredness

70. What does the author intend to tell us? _____

A. Modem transportation devices have replaced legs.

C. Human's history develops very fast.

D. The best way to travel is on foot.

参考答案

二、单项选择

21.【解答】答案：B.

at the sight of 意为"一看到…"，为一个固定的介词短语，其他的介词都没有这种搭配；故选 B.

22.【解答】答案：D.

前面主句 I went to see Dr. Smith yesterday 的时态为一般过去时，而后面 that 引导的从句中请假的动作发生在我去看望 Smith 先生之前，即表示"过去的过去"，所以用过去完成时. A 项表示过去将来时，表示过去将要发生的动作，B 项为过去进行时，表示过去某一时刻正在进行的动作；C 项为现在完成时，表示过去的某个动作对现在造成的影响和结果.

23.【解答】答案：C.

根据上面提到的电话占线可知，Anna 应该是回答他为什么电话打不进来，应该是当时正在和别人通话，表示过去某个时间正在发生的动作，用过去进行时最合适. 故选 C.

24.【解答】答案：A

根据"arts should serve the people"作为一个完整的句子，用在了系动词 is 之后，因此该句是表语从句；A. 连接词 that 在表语从句中没有任何意义，只起连接作用，但通常不能省略；B. which 哪一个；C. what 通常在表语从句中作主语，宾语和表语；由于从句表达了完整的意思，故选 A

25.【解答】答案：D.

根据后面的时间状语 without stop since the accident happened，可知应该用现在完成时，而且搜寻的结果是未定的，所以搜寻还在进行，所以用现在完成进行时，表示从过去某一时刻开始一直持续到现在，而且这一动作还将进行下去，表达的是一种强烈的情感，即不放弃搜寻被困群众. 所以选 D.

26.【解答】答案 D. 定语从句的先行词是 stories and legends，此处用 which 引导非限制性定语从句，在定语从句中做主语，不能省略. that 不能引导非限制性定语从句，故 A 不正确；在定语从句中 where 一般可与 in which 通用，且 where 的先行词通常是表地点的名词，故 B 和 C 都不正确，所以答案选 D.

27.【解答】答案 B. 分析句在结构可知，逗号之后是主句，主句主语为"the old lady". 逗号之前是（让步状语）

从句，所给动词"suffer from"与逻辑主语"the old lady""构成主动关系，应该用现在分词，从容排除 A 和 D 项. 再根据"from illnesses for years"可知，"患病"动作先于"笑对生活"发生，应该用现在分词的完成式，因此 B 项符合语境. 从句中为省略"连词+分词"可以转换为让步状语从句"Although the old lady has suffered from illness for years"理解. 故选 B.

28.【解答】答案：C.

_____ impresses the readers most 这一部分为一主语从句，缺少引导词 what，在从句中做主语；所以选 C. that 引导主语从句时不能充当任何成分，只起连接作用.

29.【解答】答案 D. may 可能；must 必须；can 能够；shall 用于第二、第三人称，表示说话人给对方命令、警告、允诺或威胁. 根据句子所表达的含义，可知说话人表达的是一种警告，故答案选 D.

30.【解答】答案 A. neither 两者都不；either（两者之中）任何一个；no one 没有人；both 两者都. 本题的干扰项 C 通常用 no one 来回答 who 的提问. 如 - - Who is in the room? - - No one. 所以根据句子所表达的含义可知答案选 A.

31.【解答】答案：B.

to experience life as a ruler 为动词不定式作后置定语，修饰前面的名词 the chance，表达的是一种将来的情况. A 项 experienced 为过去分词，表示被动和完成；C 项 being experienced 为动名词的被动，D 项 having experienced 为现在分词的完成式，不能作定语；故选 B.

32.【解答】答案 A.分析句子结构可知,句中有"V+宾语+宾补"结构,其中动词 see,宾语为"concrete measures against smog"，后面为宾语补足语，宾语 measures 与所给动词"take"构成逻辑上的被动关系，应该用过去分词，因此 A 项符合语境，故选 A.

33.【解答】答案 B. since 因为；while 尽管；if 如果；because 因为. while 引导让步状语从句，意思是"虽然…但是…. "、"尽管…但是…"（多放于句首），而且通过句中的 speed reading 和 slow reading 等信息可以得知答案选 B.

34.【解答】答案：C.

因为 without 是一个介词，所以后面需要用一个动名词的形式，refer to 意为"参考，查阅"，本句指的是在演讲的过程中没有看手稿，没看手稿和演讲是同时进行的，所以不用完成时，排除 D 项，而 B 项表示被动，也不符合句意

"做了一次精彩的演讲，甚至一次也没有看手稿"；故选 C.

35.【解答】答案：A.

表示将来不大可能实现的愿望时用将来时 would/could+动词原形．所以选 A．另外，表示与现在事实相反用一般过去时即 did，如 I wish I were as tall as you. 我希望和你一样高.；表示与过去事实相反用过去完成时，即 had done；如 He wished he hadn't said that. 他希望他没讲过那样的话..
